SkLO Droplet Vessels are a collection of seven small-to medium-sized vessels, each unique in shape and color. The vessels are asymmetrical, each a mass of solid glass around a complementary shaped void of transparent color. While the Droplet Vessels work individually, they are meant to be displayed in groups, and they are available as a set of all 7.

Seven vessels in seven colors, only as shown

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
