## Description

Large Outdoor settee, the comfort of which makes use of all our Indoor expertise. A broad 94 1/2" x 47 1/4" (240 cm x 120 cm) seat platform, made from fibreglass slats and ultra-flexible foam, mounted on a matt black aluminum base and covered in a water-repellent cover. The seat cushions, foam and wood, protected by a water-repellent liner and a non-slip outdoor fabric, have a particular shape, with two different slopes, which makes possible a "lounging" position or a more "seated" one. As with Prado, these seat cushions enable each user to find their ideal position.
